

BIODIVERSITY POLICY

- Alkaram Textile recognizes the importance and is committed to implement measures to promote the protection, conservation, and sustainable use of biologically diverse ecosystems and habitats, avoiding and / or reducing any adverse impacts to the environment caused by our operations.
- Alkaram Textile considers conserving biodiversity to be an important management policy that supports our commitment to all aspects of corporate social responsibility, including business, environmental and social factors.
- Alkaram Textile also recognizes and understands the importance of biodiversity to the environment and will seek to conserve and where possible enhance biodiversity.
- **In this regard Alkaram Textile Will:**
 - Keep updated of, meet and where possible exceed the requirements set out in the applicable biodiversity legislation and regulations.
 - Assess its impacts/aspects on annual basis and mitigate / or control them throughout our operations (direct or indirect).
 - Support the long-term conservation solutions such as development of sustainable alternatives made from recycled materials and agricultural residues.
 - Seek Guidance on statutory obligations concerning to conservation of biodiversity to incorporate its principles through effective implementation.
 - Engage with the local community and other stakeholders as far as is possible in connection with biodiversity conservation.
 - Develop a roadmap to green our supply chain by preferring those suppliers who take biodiversity into consideration & provide products and services that have least impact on biodiversity.
 - Incorporate the principles of biodiversity into estate planning, investments decisions & management.
 - Seek similar ethics & performance from our suppliers, vendors and contractors to continue to support and cooperate with our Green Supply chain initiatives.
 - Seek to participate in programmes, seminars etc to improve our knowledge and understanding on biodiversity conservation in order to further communicate, educate and promote it.
 - Enhance community and individual understanding about biodiversity, and inform, motivate and support widespread and coordinated community action to conserve and sustainably use biodiversity and enable communities and individuals to equitably share responsibility for, and benefits from, conserving and sustainably.
 - Build on our links with the community through annual events and interest groups.
 - Support institutions, NGOs that contribute to the conservation of biodiversity.
